All Girls Allowed – In Jesus’ Name, Simply Love Her

Mission of All Girls Allowed: To restore life, value and dignity to girls and mothers, to reveal the injustice of the One Child Policy.

Author: A Heart for Freedom

**End Gendercide now, rescuing China’s missing girls in Jesus’ name!**

**Feb 3<sup>rd</sup>, 2016**

Testimony to

The Congressional Executive Commission on China  
Chairman Congressman Chris Smith  
Co-chairman Senator Marco Rubio

Chairman Smith and other ranking Congressman and leaders, thank you for your leadership and commitment on shining light on this most important human right issue in China, your voice has made a difference! Let me share a few real life stories to remind all of us what a difference that has made. And then let me share what I believe needs to happen next.

### **Stories and testimonies**

You may remember in April 30<sup>th</sup>, 2015, you hosted a hearing on China’s One Child Policy. During that hearing, I said, ending One Child Policy is not up to the Chinese government, but up to God. And we prayed for the end to come. 5 months later, in Oct 29<sup>th</sup>, 2015, China declared its ending of the brutal One Child Policy;

You may also remember, in May 2012, when Mr. Chen Guang Cheng was pushed out the American Embassy and his life was in grave danger, Chairman Smith you hosted a 2<sup>nd</sup> urgent hearing, in that, we prayed and declared his freedom: 4 days later, he was released from China and landed in New York City;

You may also remember, in Dec 6<sup>th</sup> 2011, when a woman who was put in China’s black prison with her nursing child and her 70 year old mother, we prayed for her safety and freedom, 12 hours later she was released from prison in a dark night and was dumped into a cross road somewhere two hours away from Beijing. Little did we knew she was so determined to petition for justice she went

straight back to Tiananmen Square to protest and she was thrown in prison again. However, the pray and fasting was still going on here in the US for her and she was released again.

So what I want to say is that before I came to know the invisible God, each hearing was a struggle. We would be reporting these awful human rights violations, each time triggering our own memories and PTSDs, and walking away seeing very little get done. However, when I came to know God through Jesus after a Nov. 2009 hearing, this has become a new and different experience. My eyes were opened and I now experience this is not just another hearing about facts, hopes and asks, it is also a declaration, it is a prayer. When we say that in faith and trust in the God all mighty who is also listening and watching, along with the staffs and people in the audience, along with the Chinese government staffs watching either here or on the screen somewhere in DC or in Beijing, I know when we testify and ask according to His will, we will be given, when we seek we will find, when we knock, the door will be opened, as it was promised in many places in the scriptures. (Matthew 7:7-8, Matthew 21:22, Matthew 18:19, Isaiah 30:19, psalm 34:4, psalm 37:4, etc.)

So today my ask for the leaders in America, leaders in China and God, is to end Gendercide, and begin the All Children Allowed and All Girls Allowed policies in China right away!

## Definition of Gendercide

Gendercide, defined as “the systematic extermination of a particular gender,” through sex selective abortions, devaluing and violent treatment of a person that robs their well-being and dignity due to a person’s gender, which leads to loss of life, value and dignity. Under the brutal One Child Policy, coupled with China’s thousands of years of culture that favors and values men over women, Gendercide is a wide spread everyday daily practice against girls and women in China. The following statistics tells a story of a severe situation that calls for urgent action to end this injustice of Gendercide:

- At least 37 MILLION more men than women live in China, thanks to gendercide.
- Up to 120 boys are born for every 100 girls. This means 1 OUT OF EVERY 6 girls is lost to gendercide.
- 30 MILLION Chinese men will be unable to find spouses by 2020, threatening a dangerous bachelor boom.
- 1 MILLION infants are abandoned in China each year, and most of these are healthy girls.
- At least 70,000 and up to 600,000 Chinese children are trafficked each year. Most are girls.
- 35,000 forced and coerced abortions are performed each day in China under the One-Child Policy.
- 500 women commit suicide every day in China. It is the only nation where more women than men kill themselves.
- 485 MILLION people in China live on less than \$2 per day.

See more data from our research: <http://www.allgirlsallowed.org/gendercide-china-statistics>

## Severe Human Rights and Global Security implications

- Higher sex ratios are linked with increases in trafficking, rape, prostitution, and overall crime. (China's crime rate has nearly doubled in the last 20 years.)
- China alone conducts 60% of world-wide sex trafficking;
- The most abnormal sex ratios are seen where the One-Child Policy is most pervasive.
- Historically, a surplus of young men has led to unrest or expansionist foreign policy. (World War II-era Japan and modern-day Afghanistan and Pakistan both experienced a bachelor boom and unrest.)

## Solutions and Recommendations:

In China, Gendercide has two causes: the government's population control policy and the people gender bias and actions of conducting Gendercide. Therefore, Gendercide needs to be taken down and a new way of life and gender equality and harmony need to be plant and build up in every level of the society at the same time. As the scripture guides us: "Today I appoint you over nations and kingdoms to uproot and tear down, to destroy and overthrow, to build and to plant." Jeremiah 1:10. The taking down and building up needs to take place at the same time. The two can't be separated.

- **Two-child policy need to be replaced by an All Children Allowed Policy immediately**
- **An All Girls Allowed Policy and culture need to be put in place and promoted nationwide ASAP**

We celebrated greatly the fact that God has caused the Chinese government to declare an end of the One Child Policy, and we hope and pray the new Chinese leaders will have courage to publically and officially ended the One Child Policy after 35+ years of brutal enforcement as they have announced. However, to replace it with a two-child policy is not the right solution, it will continue the perpetuation of the brutal Gendercide rather than ending it. Historical data shows how the cruel Gendercide trend rose under the One Child Policy:

Sex Ratios at birth over time in China:

106:100 in 1979 (106 boys for every 100 girls, the normal rate is 105:100)

111:100 in 1988

117:100 in 2001

118:100 in 2010 (China's 2010 Census report)

119:100 in 2012 (China's 2012 Census report)

This is a painful picture.

The exceptions are only in two provinces, Tibet and Xinjiang, which had sex ratios within normal limits across the age range. These two provinces are largely inhabited by minority ethnic groups and have more lenient family planning laws. (<http://www.bmj.com/content/338/bmj.b1211.full> )

The answer is painfully simple: where there is family planning policy there is Gendercide; where there is no family planning policy, there is no or less Gendercide. Therefore to end the two-child policy as soon as possible is urgent and necessary.

The recent decision by the Chinese government on December 31\*, 2015 to offer Hukou to all including the 13 million children born without residence statues was in fact a great step towards making it towards All Children Allowed policy. It is an in fact all born children allowed! ([http://www.gov.cn/zhengce/content/2016-01/14/content\\_10595.htm](http://www.gov.cn/zhengce/content/2016-01/14/content_10595.htm)) . **This is just as a big victory as ending the One Child Policy!** We rejoice with the 13 million extra quota children and their courageous families which may add up to be 90 plus million people realizing the improvement of their quality of their lives. God has done it again. The Girls Count Act showed China and the world the right way to go. Leaders like Senator Rubio, Congressman Smith and other members of Congress who initiated, promoted the Girls Count Act, the Congressmen and women who voted to pass the Bill, President Obama who signed the Bill into the law, my dear husband Bob who supported with great effort had done another powerful work on behalf of humanity and on behalf of this population of 90+ million people in China, and hundreds of millions beyond China. **Again our hope and prayers will be this registration process will not be corruptive and punitive financially against these families who will receive Hukou for their extra quota children.**

Now we need to move ahead to make the rest of the unborn children all allowed.

**One more argument against the Two-child Policy is that this policy achieves little or if any China's population control objectives and should be completely eliminated in order to achieve China's goal to have more baby girls to balance the growing gender gap.** Look at the World Factbook: China's neighboring countries' natural replacement rate is as follows without any population control policy constrains: (<https://www.cia.gov/library/publications/the-world-factbook/fields/2127.html>):

*Taiwan: 1.12 per children born/woman (2015 est.)*

*Singapore: 0.81 per children born/woman (2015 est.)*

*Japan: 1.4 per children born/woman (2015 est.)*

*South Korea: 1.25 per children born/woman (2015 est.)*

**That means without encouragement, most married Chinese families will not have more than 2 children. No cap needed to control the population.**

**However, for the teenage girls and young women who get pregnant without marriage certificates and birth permits, the two-child policy is still a death sentence to the babies, an order of Gendercide against the teen girls and the mothers by not allowing an option to give birth to these babies, in addition to the shame and humiliation these women will face in society.** According to the Chinese Government's report, each year 30% of the 13 million abortions are from these teen and unmarried women. (<http://blogs.wsj.com/chinarealtime/2015/01/28/china-performs-13-million-abortions-per-year-state-media-says/>; <http://www.allgirlsallowed.org/forced-abortion-statistics> )

**China's population problem is not too many babies are being born, but TOO FEW babies being born, especially TOO FEW BABY GIRLS ARE BEING BORN.**

**There is a severe cost for low birth rate.** Research from analysis of data for 40 countries done by Lee et al. shows that "when fertility well above replacement and population growth would typically be most beneficial for government budgets...low fertility will indeed challenge government programs and very low fertility undermines living standards". (<http://ntaccounts.org/web/nta/show/Science> )

**China is already feeling the pain of low birth.** According to the Wall Street Journey, (<http://graphics.wsj.com/2050-demographic-destiny/>) "On the world's factory floor, China will soon confront a serious labor shortage, forcing scores of Western brands to remake their operations. The changes will mark a new chapter in the history of globalization, where automation is king and nearness to market is crucial." According to the Wall Street Journal,

**China's crisis is not over population but not enough people and labor force now! Time to know the truth!**

**All the facts and data point to the clear conclusion that the brutal counter productive and unwise Two-child Policy needs to come to an end and be replaced by an All Children Allowed policy as soon as possible, for the sake of China, the people, the Chinese government and the country!**

**But by changing the Two-child Policy into an All Children Allowed policy ALONE will not end gendercide.** An active policy that welcomes and encourages the birth of baby girls, value girls and mothers, and protects women's dignity at work, in the market place and at home in marriage are needed to end a culture and practice of Gendercide.

## **Gendercide can end with God all things are possible**

**At All Girls Allowed--In Jesus' name simply love her, we believe Gendercide can end when life, value and dignity are restored to girls and mother through the love of God.** In the past 5 years, especially the last three years, we have a small team of committed believers in the Lord, who has focused on three key stages birth, girlhood and motherhood to bring God's love to girls and mothers. What we have found is that love expressed in truth and in hard work can indeed save lives and change a culture of Gendercide and help people to live lives abundantly. Let me use a few real life stories to help explain this. Our team is motivated by God's love to us through offering His son Jesus to die on the cross for us to redeem us, but if you don't believe this, the following model can still work to help end Gendercide throughout the life cycle of a woman.

**Ending Gendercide at birth through our baby shower program by giving a cash stipend, encouraging words from the Lord, and loving fellowship to expecting mothers can help save babies, and bring well-being to mothers**

Ms. Li Xia found out she was accidentally pregnant despite the fact she already had a sterilization surgery. Under great pressure from the local family planning committee, she was considering aborting her child. After our field workers spent time to care for and encourage her, Li Xia decided to keep the child. On March 11th, Li Xia gave birth to a healthy baby girl. After the girl's birth, Li Xia's family, who was originally not willing to take care of the child, changed their minds and now they are very willing to raise

the child with her. Also, through the Baby Shower Program—borrowed from an American tradition—to encourage expecting mothers about the birth of the child, Li Xia had the opportunity to come to know Jesus Christ and got baptized. Recently, Li Xia's mother and sisters opened their hearts to Jesus Christ as well.

This is an example and testimony of God's love, carried out by faithful believers, in timely intervention, family visits, sharing the truth about life and creating a loving and supportive community to walk with the pregnant mother, in addition to save a baby girl' life, what great blessing and happiness can happen. We pray more will join us to bring this kind of baby shower program to many babies and mothers in need.

The Chinese government's law forbids families to know the gender of the unborn babies and officially outlaws sex selective abortions. Most the time our staff would not know the Gender of the babies until they are born. But one stunning facts we discovered that among all the babies rescued from abortions, there is a 2:1 ratio of baby girls rescued vs baby boys rescued. **That means among all the abortions, baby girls were being killed at twice the rate of baby boys. This trend must be stopped! And with hard work, dedication and God's love, it can be stopped**

## Number and genders of baby rescued from forced and coerced abortions

In addition to the rescue work via the baby Shower program, our team also serves those families who are in deep poverty and risk of unable to raise their new born children with care or abandoning them. Our team serves in Northeast and South of China’s poor areas. Our data continue to show three findings: Gendercide exists, boys are more than girls born; the baby shower rescue effort makes a difference to correct gender imbalance; however, if without these labor intensive rescue effort, the boy/girl ratios would be much worse.

**In 2014 our small team of dedicated workers make the following visits and achieved these results:**

- 4549 times family visits
- 871 families reached
- 109 baby girls and their families were served
- 119 baby boys and their families were served
- **Boy/Girl ratio is 109:100, better than 119:100 nation-wide average with help of the rescue baby shower program**
- 37 babies were being rescued
  - 23 baby girls were rescued from abortions

- 12 baby boys were rescued from abortions
- 2 failed rescues, families still went through abortions, we continue to support them
- **Boy/Girl ratio would have been 124:100 worse than the 119:100 nation-wide average without the baby shower rescue program**
- 122 people came to Jesus
- Men in the family started to change to join the work of ending Gendercide

**In 2015 our small team of dedicated workers make the following visits and achieved these results:**

- 3701 times family visits
- 610 families reached
- 93 baby girls and their families were served
- 110 baby boys and their families were served
- **Boy/Girl ratio is 118:100, better than 119:100 nation-wide average with help of the rescue baby shower program**
- 50 babies were being rescued
  - 10 baby girls were rescued from abortions
  - 5 baby boys were rescued from abortions
  - 34 families were persuaded for not going through abortions, but baby's gender unknown because they have not been born yet;
  - 1 failed rescue, family still went through abortion, we continue to support them
- **Boy/Girl ratio would have been 126.5:100 worse than the 119:100 nation-wide average without the baby shower rescue program**
- 79 people came to Jesus

China's ratio is around 119:100

As a small ministry, we can do that, we encourage the Chinese government to do more! We applaud the “care for girls” and “girl protection” programs. They should continue! An investment to save millions of girls via a baby shower program by the Government of China would payback economically and socially. I believe there are many American people are eager to help and fund the work of rescues of these baby girls.

#### End Gendercide during Childhood:

In addition to devaluing girls by abandoning them and not give them opportunity for education, etc. China today is facing another form of Gendercide in the form of leaving millions of girls and wives behind. Chinese people have strong work ethic. With many farmers' lands are taken away and modernization, each year 270+ million people migrate to cities to work, leaving the young children and wives behind. This has a devastating impact on a reported 61 million “left behind children” in China, especially “left behind girls”. They tend to suffer depression, low self-esteem and are sometimes abused emotionally and sexually. Again our workers formed a ministry to care for some of these left behind children.

As we are speaking here, this massive migration of 270+ million people is taking place because the workers will go home for Chinese new year. This is an important time for the Chinese Government, the local communities and the churches to help the 61 million “left behind children” and their parents, to help them to stay in a loving family to learn love and to give love.

The followings are two notes sent back to us when our faith workers formed a ministry to care for these left behind children through care and visits, offering summer interns and organize them for field trips. These children can be raised up with thankful hearts and form healthy attachments. Gendercide can end in each of these families.

### Thankful heart

One day, on the way to school, I saw a little girl who had fallen down on the road, and I went over and helped her get up. I learned to have a grateful heart. Now I remember my own mom, who lost me (I lost her). But I have so many moms now because of you. After I grow up, I will work and earn money to return to you. I will not waste even one penny!

**I Love You:** Dear Aunties, I believe in the God you told me about. Thank you for giving me 200 yuan every month. I'm planning to give you back this money after I grow up and find a job. I love you all.

But this is not enough, with the new Hukou system reform, more policies are needed to provide affordable housing, education and safety to encourage families to stay together, for the children and especially girls and mothers to be cared for while China is going through this most massive industrialization on earth.

### **Ending Gendercide in Marriage**

There is no place more lonely for a woman than a marriage that was filled with abuse and neglect and violence. Often, a birth of an unwelcomed child can cause tension within a marriage to intensify.

Ms. Gui Xiu was caught in this kind of tension. She was pregnant with a 4<sup>th</sup> child who again would be a girl. Her husband had it and did not want to her to keep the baby. She was a Christian after speaking with our workers who visited her, she became more determined not to abort the child. There was great tension in the family. The husband even threatened to walk out on her and the other children. With the support and comfort of our field workers, Gui Xiu patiently and courageously endured the difficult pregnancy and the 4<sup>th</sup> child was finally born. The husband was very upset and he did not even want to look at the new born child. He was trying to force the mom to give the baby away. There were so much tears and sorrows in the family. They were in crisis.

The leaders of our workers took a bus for a whole day to come into this poor and isolated mountain side to visit this family. Our leader's sacrificial devotion moved the husband, he at first allowed himself to listen to our leader. Our leader talked, listened and asked more questions. The husband listened, nodded his head and finally he opened up. It turned out they had an older son, who passed away at age 12. Trying to save this boy from illness the family took on a huge debt but the boy still died. To coop with grief, the husband was determined to have another boy born to replace the lost one. However, he was given 4 daughters instead.

After being reminded that God created man and woman in His image, boys and girls are equal. A turning of heart started taking place in this father's heart. He got up from his seat, picked up the 4<sup>th</sup> baby girl, looked at her first time after she came to the world, and asked our leader, "What shall we call her?" the leader immediately come up with a name: Rebecca; the name of Issca's wife in the Bible. That was the moment this unnamed baby girl became baby Rebecca and was allowed and welcomed into this family.

A girl was born, a daughter welcomed, a marriage was restored, a father came to faith, a family received both salvation, joy and harmony. This is hard work, but necessary to do! When our leader went back on the bus to take on another whole day journey to home, we all rejoiced with them and with this precious family in China and in America, that day Gendercide ended in another family!

### **Ending Gendercide in Sex education and purity before marriage teaching**

China's culture used to have a very conservative view towards sex and purity. However, with reform and influence from the west, unprotected sex and pregnancies became another form of Gendercide against teen girls and unmarried women. Great work needs to be done on this front to restore a culture of purity with sex and the meaning of dating, romance and marriage education at the appropriate age. In 2016, our ministry will start piloting some program on this front. Will report back on progress.

### **Our Ask**

Ending Gendercide is a complex, extremely urgent and a God size task. It needs a cooperation from Chinese Government and the civil society especially church community to work together to bring it to an end. With God's help through prayer, our work to end Gendercide has proven effective. However, we are greatly challenged by the Chinese governmental constrains. The current policy forbids NGOs to register with names that indicate religion afflictions ([http://jnz.cq.gov.cn/main/mzj/flfg/mjzz/zcwj/1\\_1078/default.shtml](http://jnz.cq.gov.cn/main/mzj/flfg/mjzz/zcwj/1_1078/default.shtml) ). Our faith forbids us to deny God and Jesus in name and in actions (revelation 3:8). We encourage the Chinese government to remove this constrain so more church believers can form NGOs to join the movement to end Gendercide in China and around the world.

Our workers have been serving under fear of persecution and some left the ministry in 2015 due to constant police harassment. We need not only permission, but protection and help in expanding this work of ending Gendercide.

So in summary, we urge the Chinese government to do following:

- **To replace the Two-child Policy with an All Child Allowed policy immediately;**
- **To install and implement an All Girls Allowed Policy Immediately;**
- **To stop oppressing the churches in China, rather to remove restrains of NGO registration in faith, to invite and encourage faith communities to support the government's policy to end Gendercide. As the wise King Salomon said: "By justice a king gives a country stability" (proverb 19:4). China's stability can't be built upon injustice! We need to act justly, love mercy and walk humbly with the Lord our God. This is a commandment for all people.**

Same logic, the world stability can only come from ministering human rights and justice. Gendercide is the largest injustice on earth today. Therefore we also urge the US leaders, Congressional leaders, President Obama, business, education, women's rights and faith community leaders, presidential hopefuls and all to help us end this evil and restore peace!

In Jesus' name we pray, and believe it will be done, amen!

### Thankful heart

One day, on the way to school, I saw a little girl who had fallen down on the road, and I went over and helped her get up. I learned to have a grateful heart. Now I remember my own mom, who lost me (I lost her). But I have so many moms now because of you. After I grow up, I will work and earn money to return to you. I will not waste even one penny!

**I Love You:** Dear Aunties, I believe in the God you told me about. Thank you for giving me 200 yuan every month. I'm planning to give you back this money after I grow up and find a job. I love you all.

**To the 270 million migrating workers, it's time to make no children especially girls left behind!**

# IN JESUS' NAME, SIMPLY LOVE HER

## All Girls Allowed

Gendercide ended  
in Ms. Gui Xiu's  
family through  
welcoming their  
4<sup>th</sup> daughter  
Gendercide can  
end in marriages

# IN JESUS' NAME, SIMPLY LOVE HER

All Girls Allowed

- Gendercide needs to end in dating and youth
- Through sex ed. and purity teaching
- Plan to pilot programs in 2016

**IN JESUS' NAME, SIMPLY LOVE HER**

All Girls Allowed

## Our Ask

# IN JESUS' NAME, SIMPLY LOVE HER

## All Girls Allowed

- To replace the two-child Policy with an All Child Allowed policy immediately;
- To install and implement an All Girls Allowed Policy Immediately;
- To stop oppressing the churches in China, rather to remove restrains of NGO registration in faith, to invite and encourage faith communities to support the government's policy to end Gendercide.
- As the wise King Salomon said: "By justice a king gives a country stability" (proverb 19:4). China's stability can't be built upon injustice! We need to act justly, love mercy and walk humbly with the Lord our God. This is a commandment for all people.
- We urge the US leaders to help end Gendercide and bring peace and stability to the world
- Ending Gendercide is a God size task. In Jesus' name we trust and believe it will be done! Amen!
